<td>Student computing devices support digital curriculum and instruction within Lincoln Public Schools (LPS) classrooms. The device used by students will vary by student age, ability, and learning situation (Chromebooks, tablets, etc.).</td>
<td>The computing devices used by students can access the internet as well as running applications, allowing learners to engage with digital curriculum and participate in other learning opportunities within a filtered environment regardless of host network.</td>
<td>Students may sign into online tools using their LPS accounts. LPS takes this exchange of data very seriously and works to protect the personally identifiable information of students. For more information visit LPS.org keyword: ITT.</td>
<td>Device use is a privilege and students must demonstrate appropriate caution and responsibility when using them. Chromebooks will be returned in a safe and timely manner upon LPS request.</td>

</table>

### REGARDING FINANCIAL LIABILITY:
Families are held liable for acts of vandalism (willful destruction of property) to LPS property by their student. Additionally, families are responsible for all costs associated with repairs to Chromebooks assigned to their student. The optional Chromebook Assurance Program (CAP) exists to protect students and families from full financial responsibility for Chromebook repairs and/or replacement.

### AS PARENT / GUARDIAN:

- I acknowledge and authorize that my child will use internet-enabled LPS Student Computing Devices and other technology resources during the course of their enrollment in LPS. I understand that LPS employs a filtering mechanism to comply with federal regulations on and off LPS network. I further understand filtering is not a substitute for adult supervision, and I acknowledge my responsibility to provide supervision while my student is not at school.

- I acknowledge the use of technology is a privilege, not a right, and that my child will comply with LPS School Board Policies when using technology. For more information see the ‘Technology Resources and Use’ section of the ‘LPS Important Information Book’ available at LPS.org keyword: "important".

- I grant permission for LPS to provide selected information required for my child to use online or other equipment or instructional technology tools approved by the LPS Instructional Technology Tool Evaluation Committee. I further consent LPS may provide such information on my behalf under the Children's Online Privacy Protection Act, Children's Internet Protection Act, Protection of Pupil Rights Amendment, Family Educational Rights and Privacy Act, and other federal or state law.

- I acknowledge this authorization will apply for the duration of my child's enrollment in an LPS middle or high school unless the parent/guardian wants to change their original decision.

- I specifically agree to indemnify and hold Lincoln Public Schools harmless from all liability, damages, claims, costs, expenses or other charges of any kind or nature whatsoever resulting from my child's use of the LPS device or from any unauthorized use or content viewed on or downloaded to the device.

*I would like my student to fully participate in digital learning through the use of LPS student computing devices.*
